

# St Anthony's Health Centre

## Patient Charges as at December 2012

Currently fees are limited to:

### Vaccination Fees for Hepatitis B (Occupational Health Only)

The vaccination charges cover the consultation time and cost of vaccines. Fees must be paid at booking; a receipt will be issued, fees are often recoverable from employers.

Cost per vaccination	Vaccinations required in full course	Cost of Course	Blood Test and certificate	Total Cost
<b>£30.00</b>	<b>3</b>	<b>£90</b>	<b>£25.00</b>	<b>£115.00</b>

The cost of a single hepatitis b vaccine is £30. A full course of hepatitis b is three vaccines, this comes to a total of £90.

A blood test is required 6 weeks after completion of this course, the fee for the blood test and certificate confirming the result is £25.00

Occasionally blood results show that a fourth vaccination is required, if this is the case an additional charge of £30 will be payable, and must be made prior to the vaccination.

**The practice does not provide any other private vaccinations at the current time.**

### **Taxi/ Employment Medicals**

If a patient is meeting his or her own medical fee, a discounted charge of £88.00 is payable in advance and must be made at booking.

If the employer/company is responsible for the fee then the full cost of the medical is required £138.00 to be invoiced in advance at time of booking.
